## Convenient BLE transmission functions for installation contractors
Initial setup for the remote controller can be easily performed using BLE transmission via a smartphone.

● Previous model
Previously, initial setup (selecting function parameters) was onlyavailable via the remote controller installed each room.

● New model
The initial setup (selecting function parameters) can now be performed in advance on a smartphone, with the settings transmitted to the remote controller by enabling BLE transmission upon entry to the room.

→

Convenient BLE transmission functions for guests
The remote controller has been further upgraded with hotels in mind, to allow smartphone connectivity and multilingual support.

Smartphone connectivity
For example, hotel guests can operate the air conditioner via their smartphones, without getting out of bed.

Multilingual support
The smartphone app can be displayed in the language that the guest's smartphone is set to.
